SUMMARY OF THE INVESTIGATION

The Goods

The goods subject to investigation (the Goods Concerned) are:

Self-propelled track-laying (i.e., tracked) excavators with a 360° revolving superstructure and with an operating weight of 11,000 kg (i.e., 11 tons) or more.

The Goods Concerned are subject to the following commodity codes:

8429521000

The applicant considers that the Like Goods are considered the same as the Goods Concerned for the purposes of this investigation.

Allegations of dumping and injury

The Application alleges that the Goods Concerned have been imported into the United Kingdom from the People's Republic of China, and that the constructed normal value is less than the constructed export price.

The Applicant claims that the alleged dumping has caused injury to industry in the United Kingdom through the effects on:

- profitability;
- market share;
- price depression;
- growth.

SUMMARY OF THE INVESTIGATION PROCESS

The period of investigation is 1 July 2022 to 30 June 2023. In order to assess injury, we will examine the period from 1 July 2019 to 30 June 2023.

The investigation will involve the following process:

- inviting parties to register their interest in the investigation;
- issuing questionnaires, where practicable, to:
 - all interested parties (other than the government of the foreign country or territory) who have registered an interest in the investigation;
 - all contributors who have registered an interest in the investigation;

- all UK producers, importers, and overseas exporters and overseas producers identified in the Application; and
- any trade or business association of UK producers, importers and overseas exporters identified in the Application.
- carrying out verification visits to further assess and examine information;
- analysing information gathered;
- determining whether goods are being dumped and the dumping is causing injury to UK industry;
- determining an amount adequate to remove the injury;
- considering whether applying an anti-dumping amount would be in the economic interests of the UK;
- publishing a Statement of Essential Facts. On publication, we will set a period of time, which will be no longer than 30 days, during which parties will be able to comment on the Statement of Essential Facts; and
- at the end of the investigation we will make a recommendation to the Secretary of State for International Trade (the Secretary of State) which may include provision for an anti-dumping amount to be applied. The Secretary of State will then decide whether to accept or reject that recommendation.

Our [Trade Remedies Guidance](#) provides more information about the investigations process.

Provisional Affirmative Determination

If, at any time during the investigation, we are satisfied that there are sufficient grounds for recommending imposition of an anti-dumping amount, we may make a provisional affirmative determination under paragraph 11 of Schedule 4 to the Act and make a recommendation to the Secretary of State under paragraph 13 of that Schedule that importers of the goods concerned are required to give a guarantee in respect of an estimated anti-dumping amount. We will only require a guarantee where we are satisfied that it is necessary to prevent injury being caused during the investigation to UK industry in the relevant goods, and that it meets the economic interest test.

Parties are invited to comment on the issue of a making a provisional affirmative determination and requiring a guarantee throughout the investigation.

Sampling

Depending on the number of parties registering an interest in the investigation, we may consider it appropriate to limit examination to a sample of:

- overseas exporters;
- overseas producers;
- importers;
- categories of goods;
- UK producers;
- transactions for the purchase of the like goods in the UK; or

- anything else we consider it appropriate to sample.
