## **Allegations of dumping and injury**

The application alleges that the goods concerned have been imported into the United Kingdom from the People's Republic of China, and that the export price is less than the normal value.

The applicant claims that the alleged dumping has caused injury to industry in the United Kingdom through the effects on:

- a. UK industry sales and market share;
- b. Profits;
- c. Investments;
- d. Cost of production;
- e. Employment and productivity; and
- f. Price effects.
- g. Output and capacity utilisation
- h. Stocks

## **SUMMARY OF THE INVESTIGATION PROCESS**

The period of investigation is 1 April 2023 to 31 March 2024. In order to assess injury, we will examine the period from 1 April 2020 to 31 March 2024.

The investigation will involve the following process:

- inviting parties to register their interest in the investigation;
- issuing questionnaires, where practicable, to:
  - all interested parties (other than the government of the foreign country or territory) who have registered an interest in the investigation;
  - all contributors who have registered an interest in the investigation;
  - all UK producers, importers, and overseas exporters and overseas exporters identified in the Application.
- carrying out verification visits to further assess and examine information;
- analysing information gathered;
- determining whether goods are being dumped and the dumping is causing injury (including the threat of material injury);
- determining an amount adequate to remove the injury;

- considering whether applying an anti-dumping amount would be in the economic interests of the UK;
- publishing a Statement of Essential Facts. On publication, we will set a period, which will be no longer than 30 days, during which parties will be able to comment on the Statement of Essential Facts; and
- at the end of the investigation we will make a recommendation to the Secretary of State for Business and Trade (the Secretary of State) which may include provision for an anti-dumping amount to be applied. The Secretary of State will then decide whether to accept or reject that recommendation.

Our [Trade Remedies Guidance](#) provides more information about the investigations process.

### ***Provisional Affirmative Determination***

If, at any time during the investigation, we are satisfied that there are sufficient grounds for recommending imposition of an anti-dumping amount, we may make a provisional affirmative determination under paragraph 11 of Schedule 4 to the Act and make a recommendation to the Secretary of State under paragraph 13 of that Schedule that importers of the goods concerned be required to give a guarantee in respect of an estimated anti-dumping amount. We will only require a guarantee where we are satisfied that it is necessary to prevent injury being caused during the investigation to UK industry in the relevant goods.

Parties are invited to comment on the issue of making a provisional affirmative determination and requiring a guarantee throughout the investigation.

### ***Sampling***

Depending on the number of parties registering an interest in the investigation, we may consider it appropriate to limit examination to a sample of:

- overseas exporters;
- overseas producers;
- importers;
- categories of goods;
- UK producers;
- transactions for the purchase of the like goods in the UK; or
- anything else we consider it appropriate to sample.

### ***Hearings***

Interested parties can request a hearing during the investigation using the [Trade Remedies Service](#).

For further information about hearings, please see our [Meetings, Hearings and Visits guidance](#).

### ***Confidential information***

Information provided during an investigation may be treated as confidential. Anyone requesting that information be treated as confidential must demonstrate why and provide:

- a non-confidential summary of that information; or
- where that is not possible, a statement of reasons explaining why the information should be treated as confidential, and why it cannot be summarised.
