The Approved Cables Initiative (ACI) on CPR:

Construction Products Regulation (CPR) ensures consistent information is available for those who need to know by enabling the performance of construction products throughout the EU to be assessed and compared irrespective of the manufacturer or country of origin.

The Approved Cables Initiative recently launched a campaign to highlight the 'CPR' requirements - the results are expressed in a hierarchical series of classes (A_{ca} down to F_{ca}). Please watch the video (<https://youtu.be/-KgZlIVzkv8>) and access our [CPR page](https://www.bcauk.org/about-us/construction-products-regulation-cpr) (<https://www.bcauk.org/about-us/construction-products-regulation-cpr>).

Specifiers – are you CPR ready?

The British Cables Association (BCA) is the UK trade association for manufacturers
