Introduction

Registration of interest to the investigation

We invite interested parties and contributors to **register** their interest in this investigation **by completing the relevant sections** as indicated in this form **and submitting the completed form** using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

An interested party is either:

- a government of the foreign country or territory subject to the investigation;
- an overseas exporter, an overseas producer or an importer of the goods subject to the investigation;
- a UK producer of goods that are like the goods subject to the investigation; or
- a trade or business association representing one or more of the above parties.

A contributor is a person or organisation who is not an interested party but who wants to register so that they can participate in an investigation.

Scope of the investigation

Goods concerned	<p>Hot-rolled steel plate originating in The Republic of Korea described as:</p> <ul style="list-style-type: none"> • Flat-rolled products of iron or non-alloy steel, of a width of 600mm or more, hot-rolled, not clad, plated or coated, not in coils; not further worked than hot-rolled, of a thickness exceeding 4.75mm, excluding tool steel. Including perforated or not further worked than surface-treated or simply cut into shapes other than rectangular; and/or • Flat-rolled products of iron or non-alloy steel, of a width of 600mm or more, clad; and/or • Flat-rolled products of other alloy steel, of a width of 600mm or more, not further worked than hot-rolled, not in coils, of a thickness of 4.75 mm or more. <p>These hot-rolled steel plate products are currently classifiable within the following commodity codes (CN codes):</p> <p>72085120, 72085191, 72085198, 72085210, 72085299, 72085291, 72089020, 72089080, 72109030, 72254040, 72254060.</p>

Completing this registration form and pre-sampling questionnaire

To register to this case, you need to provide two copies of your response to this form: a confidential and a non-confidential version. Your non-confidential version should be as similar as possible to your confidential version except for the redaction of the confidential information.

Both copies must be returned to the TRA by 23 June 2025, 23:59 GMT using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

The non-confidential version of your registration form and pre-sampling questionnaire may be placed on the public file: <https://www.trade-remedies.service.gov.uk/public/cases/>.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures. Please see the [TRA's public guidance](#) for further information on providing confidential information and non-confidential summaries.

All information provided to the TRA in confidence will be treated as confidential in accordance with regulation 45 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations) and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Regulations) and will be stored in protected systems.

Request to complete a detailed questionnaire

If, on the basis of the information provided in this form, we determine that you are an overseas exporter or an importer of the goods subject to the investigation, or a UK producer of goods that are like the goods subject to the investigation, we will ask you to complete a detailed questionnaire to inform this investigation.

If we consider it appropriate, we may only ask a sample of overseas exporters, importers and/or UK producers to complete a detailed questionnaire. By submitting this completed registration form and pre-sampling questionnaire, you agree that you may be included in any such sample.

If your business is included in the sample, you will be asked to respond to the questions in the detailed questionnaire and to support the TRA in verifying your responses. This may involve the TRA carrying out a verification visit to your premises.

Sampled overseas exporters will have an individual margin calculated for their business. If you are an overseas exporter and indicate that you do not agree to possible inclusion in a sample, your business may be deemed not to have cooperated in the investigation. The TRA may base its findings for non-cooperating parties on facts available. This may result in an outcome that is less favourable to your business than if it had cooperated.

If we decide to sample overseas exporters, and your business is not selected for this sample, you may submit a request to us to calculate individual margins for your business. We may accept your request providing that:

- you submit the required information on time; and
- the number of exporters subject to examination is not so large that complying with the request would be unduly burdensome and risk preventing the timely completion of the investigation

B2. Scope

23. We welcome commentary and feedback on the commodity codes provided in this form, and the overall scope of the investigation. If you consider that the scope of the investigation should be different, please provide your reasons in the field below including any relevant commodity codes that should be included or removed.

Duferco UK wishes to highlight that Spartan UK (the only UK plate producer active today), has included tariff codes 720851910 and 7208529190—covering hot rolled plate with a width of 2050mm or greater—in their submission. These specific widths are not produced by Spartan UK or any other domestic manufacturer. They serve specialized uses across various industries (general construction, bridges, yellow goods, wind turbines, etc.) and are not suitable for slitting or repurposing into other applications. As such, we do not consider these products to be "like goods" for the purposes of this investigation. They do not pose a threat to the domestic industry, and we therefore request that these tariff codes be excluded from the scope of the inquiry.

Regarding the remaining tariff headings under review, we are opposed to any import restrictions. Currently, the UK has only a single producer of plate, and imposing limitations on imports would risk creating a monopolistic and uncompetitive market environment for UK stockholders, SSCs, and consumers.

Lastly, we would like to point out that hot rolled plate from South Korea is subject to substantial and pre-existing safeguard measures, measures that have become further restricted as a result of the recent TRA review (TQ0066). Considering this, we believe that there is no justification for a Provisional Affirmative Determination at this stage.

B3. Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types and subcategories of goods that fall under the description of the goods concerned. PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the country subject to an investigation.

We have created the following draft PCN table for this investigation:

Category	Subcategory	Code	Description

If, following an investigation or review, we conclude that a measure should be imposed, we conduct an Economic Interest Test (EIT) to determine whether the measure is in the wider economic interest of the UK. In order to obtain a complete picture of the UK market, could you please help by providing us with details of UK upstream companies (providing inputs for the manufacture of the goods that are like the goods concerned) and UK customers (downstream companies buying the goods)? Please confirm in the final column if we are able to contact these companies.
