The scope of this investigation

Goods concerned

This investigation covers certain excavators exported from the PRC, described as:

- ***Self-propelled track-laying (i.e., tracked) excavators with a 360° revolving superstructure and with an operating weight of 11,000 kg (i.e., 11 tons) or more.***

These excavators are currently classifiable within the following commodity code 8429 5210 00. This commodity code is only given for information, and includes 'mini' excavators under 11 tons.

In this pre-sampling questionnaire, these goods will be referred to as the goods concerned. Any reference to the goods concerned in this pre-sampling questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

Like goods

In addition to seeking information about your company's export sales to the UK of the goods concerned, this pre-sampling questionnaire will also ask about your sales of like goods in your domestic market and to third countries. Any reference to 'like goods' in this questionnaire refers to goods which are like the goods concerned in all respects, or with characteristics closely resembling them.

Please follow the instructions for each question to provide the appropriate information regarding the goods concerned or like goods.

For more information about this case, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/AS0046/>

Instructions

The Trade Remedies Authority (TRA) is responsible for investigating the allegation that the production and/or export of certain excavators from the PRC to the UK are being subsidised and that this subsidisation is causing injury to the UK for these goods.

Who should complete this form

You should complete this form if you are an overseas exporter of goods concerned.

Why you are being asked to complete this pre-sampling questionnaire

You have identified yourself as an overseas exporter of the goods concerned. We are therefore seeking your cooperation in the investigation.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of overseas exporters of the goods concerned from the PRC complete this pre-sampling questionnaire, we will use the information each one provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

By submitting a completed detailed questionnaire response, you might become eligible for an individual countervailing amount, if we are recommending that measures apply following this investigation. Please refer to [Section C](#) for more information on individual countervailing amounts.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you could be found to be non-cooperating. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than **30 November 2023**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact **David George**, AS0046@traderemedies.gov.uk and see the TRA's guidance on extension requests for further information.

Note about confidentiality

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date.

Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-Confidential” in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

Please see the [TRA's public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems. The non-confidential version of your submission will be placed on the public file, which is available on <https://www.trade-remedies.service.gov.uk/public/case/AS0046/>

Section A – Activities of your company and any associated parties

Section B – Production and sales volumes

B1 – Production

Please fill in your company's total production volume and capacity for the goods concerned and like goods in the table below.

POI 01 July 2022 – 30 June 2023	Volume (KG)	Volume units
Overall production of the goods concerned and like goods during the POI	0	0
Total production capacity of the goods concerned and like goods during the POI	0	0

B2 – Sales volume and value

Please provide the total sales volumes and sales price values in the table below.

POI 01 July 2022 – 30 June 2023	Volume (KG)	Volume units	Value in £
Total export sales of the goods concerned to the UK during the POI manufactured by your company	0	0	0
Total export sales of the goods concerned to the UK during the POI not manufactured by your company	[commercially sensitive data: non-confidential range: 47,123~61,724]	[commercially sensitive data: non-confidential range: 0~5]	[commercially sensitive data: non-confidential range: 177,210~219,668]
Total domestic sales of like goods during the POI manufactured by your company	0	0	0
Total domestic sales of like goods during the POI not manufactured by your company	0	0	0

B3 – Commodity codes

Please provide details of the commodity code(s) you export the goods concerned to the UK under in the box below:

Customs HS code when exported from China: 8429 5212 00

Customs HS codes for UK import Customs clearance: 8429 5210 00

Section C – Individual Countervailing amount

If the TRA decides to sample overseas exporters, and you are **not** selected for this sample, you might become eligible for an individual countervailing amount if you complete a detailed questionnaire. Please indicate whether you would complete this questionnaire below

- Yes
 - No

If you do **not** choose to complete a detailed questionnaire, you will not be eligible for an individual countervailing amount. Your countervailing amount will be determined based on the amounts imposed on the overseas exporters in the sample.

Please note:

If we recommend that a trade remedy measure applies following this investigation, and you have requested an individual countervailing amount, please note that you will be required to supply the necessary information within the given timeframe for us to calculate this for you.

The TRA must accept an overseas exporter's request for an individual countervailing amount and calculate an individual amount, providing that:

- the information required is complete and submitted on time; and
- the number of requests for individual calculations does not unduly burden the investigation and risk delaying its conclusion.

Section D – Additional information

D1 – Other interested parties

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below.

Organisation name	Website

D2 – Scope

Do you agree with the scope of the investigation as outlined on page 3?

Yes

No

If you have answered no to the above question, please can you explain why?

N/A

D3 – Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

Given the relatively low number of sales in the UK Excavator market and the large number of configurations available for purchase (e.g., air conditioning for the cab, dozer blades or not, and different sizes of track shoes), we consider it is not useful to add further PCNs. Instead, any differences in physical characteristics relevant to the calculations (e.g., any costly attachments or options) should be addressed through adjustments.

Category	Description	Basic Operating weight
S	Small Excavators	≥ 11 tons < 15 tons
M	Medium Excavators	≥ 15 tons < 20 tons
L	Large Excavators	≥ 20 tons < 30 tons
XL	Extra-Large Excavators	≥ 30 tons

Please review the draft PCN structure for this investigation shown in the table above. Please include any comments on the PCN structure in the box provided.

N/A

D4 – Economic Interest Test

It is a requirement of the investigation to conduct an Economic Interest Test (EIT). The aim of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK. In order to obtain a complete picture of the UK market, could you please help by providing us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your like goods). Please confirm in the final column if we are able to contact these companies.

	Company name	Company location (city, country)	Company Contact Information (email/telephone)	Relationship	Can we contact Y/N
1	[redacted – commercially sensitive information]	[redacted – commercially sensitive information]	[redacted – contains personal information]	Downstream	Y
2	[redacted – commercially sensitive information]	[redacted – commercially sensitive information]	[redacted – contains personal information]	Downstream	Y
3	[redacted – commercially sensitive information]	[redacted – commercially sensitive information]	[redacted – contains personal information]	Downstream	Y
4	[redacted – commercially sensitive information]	[redacted – commercially sensitive information]	[redacted – contains personal information]	Upstream	Y

D5 – Anything else

Please use the box below to provide information about anything else you consider relevant to this investigation.

Xuzhou Construction Machinery Group Import & Export CO., Ltd. would like to explain how the [commercially sensitive data: 100] kg goods concerned (as in “*Total export sales of the goods concerned to the UK during the POI not manufactured by your company*” in B2 - Sales volume and value) are exported to the UK. Among the [commercially sensitive data: 100] kg goods concerned:

- [commercially sensitive data: 71] kg goods concerned are exported directly to the [redacted – commercially sensitive information] by Xuzhou Construction Machinery Group Import & Export CO., Ltd.;
- [commercially sensitive data: 29] kg goods concerned are sold firstly to the [redacted – commercially sensitive information] by [redacted – commercially sensitive information]. Then, [commercially sensitive data: 29] kg goods concerned are resold to [redacted – commercially sensitive information] by [redacted – commercially sensitive information]. However, the shipment is from China’s Port to UK port directly.

Now you have reached the end of this questionnaire please ensure that you have prepared a confidential and non-confidential version and indicated the status of each within the header. The non-confidential version should redact personal contact information, names, signatures, and exact sales quotes. Redacted figures should be replaced with a range where possible. Please return both versions to the TRA using the Trade Remedies Service (trade-remedies.service.gov.uk).
