TRQ review

In conducting the TRQ review, the TRA will consider whether there has been a change in circumstances since the application of the relevant tariff rate quota (see below). As part of the review, the TRA may consider:

- Whether the amount or allocation of the tariff rate quota is appropriate for domestic market conditions;
- The desirability of maintaining, as far as possible, traditional trade flows;
- Any other factors that it considers relevant.

Scope of the review

This TRQ review will consider whether the tariff rate quotas to which certain steel products are subject should be varied. These product categories are:

- 1 – non-alloy and other alloy hot-rolled sheet and strip (split into categories 1A and 1B – authorised use)
- 4 – metallic coated sheet
- 5 – organic coated sheet
- 6 – tin mill products
- 7 – non-alloy and other alloy quarto plates
- 12 – merchant bars and light sections (split into categories 12A (alloy merchant bars and light sections), and 12B (non-alloy merchant bars and light sections))
- 13 – rebar
- 16 – non-alloy and other alloy wire rod
- 17 – angles, shapes, and sections of iron or non-alloy steel
- 19 – railway material
- 20 – gas pipe
- 21 – hollow section
- 25 – large welded tube (split into categories 25A (large welded tube (1)) and 25 B (large welded tube (2)))
- 26 – other welded tube

A full list of the commodity codes which are included in each category can be found in [Trade remedies notice 2024/06: safeguard measure: tariff-rate quota on steel goods](#).

For more information about this case, you may refer to the Notice of Initiation published at: www.trade-remedies.service.gov.uk/public/cases.

Instructions

I – Who should complete this form

You should complete this form if you wish to register your interest in the TRQ review.

II – Note about confidentiality

Anyone requesting that information be treated as confidential should provide a non-confidential summary of that information or a statement of reasons why it cannot be summarised.

Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-Confidential” in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

All information provided to the Trade Remedies Authority (TRA) in confidence will be treated accordingly, only used for this review, and will be stored in protected systems.

The non-confidential version of your submission may be placed on the public file, which is available on www.trade-remedies.service.gov.uk/public/cases.

Section A – Your organisation’s interest in the review

To register your organisation’s interest in this TRQ review, please complete the text boxes below.

A1. Please describe your interest in this TRQ review:

OKAYA Europe GmbH exports the variety of steels from various countries and supplies to customers in UK.
Our historical supply to the downstream customers in UK is based on long-term and well-stable relationship.
We concern the shortage of quota product category 16 / residual quota for non – EU countries.
Product category 16 has no exemption on developing countries.
The quota for product category 16 was exhausted in few days by one or two dominating origins (developing countries)
Our long-term and traditional downstream customers in UK had big impact by 25% duties.

Section B – Additional information

B1. Please use the box to provide information about anything else you consider relevant to this TRQ review:

In order to prevent crowding out of traditional supplying origins, individual country caps of 15% should be introduced under residual quotas for categories 16.
