## The scope of this investigation

### Goods concerned

This investigation covers Suspension Poly(vinyl chloride) (S-PVC) exported from the United States of America (US) to the United Kingdom (UK), described as:

“Suspension Poly(vinyl chloride) (S-PVC), not mixed with any other substance”

These goods are currently classifiable within the following commodity code:

- 39041000 15
- 39041000 80

This commodity code is only given for information.

In this pre-sampling questionnaire, these goods will be referred to as ‘the goods concerned’. Any reference to ‘goods concerned’ in this pre-sampling questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

### Like goods

In addition to seeking information about your company’s export sales to the UK (if applicable) of the goods concerned, this pre-sampling questionnaire will also ask about your sales of like goods in your domestic market and to third countries (if applicable).

Any reference to ‘**like goods**’ in this questionnaire refers to goods which are like the goods concerned in all respects, or with characteristics closely resembling them.

**Please follow the instructions for each question to provide the appropriate information regarding the goods concerned or like goods.**

For more information about this case, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/AD0049/>.

## Instructions

The Trade Remedies Authority (TRA) is responsible for investigating the allegation that:

S-PVC from the US is being exported to the UK at prices less than its normal value and that this dumping (export price at less than normal value) is causing injury to the UK industry for these goods.

## Who should complete this form

You should complete this form if you are **an overseas producer and/or exporter** of the goods concerned.

## Why you are being asked to complete this pre-sampling questionnaire

You have identified yourself as an overseas producer and/or exporter of the goods concerned. We are therefore seeking your cooperation in the investigation.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of overseas producers and/or exporters of the goods concerned from the US complete this pre-sampling questionnaire, we will use the information each provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

By submitting a completed detailed questionnaire response, exporters might become eligible for an individual anti-dumping amount, if we are recommending that measures apply following this investigation. Please refer to [Section C](#) for more information on individual anti-dumping amounts.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you could be found to be non-cooperating. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

## Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than 23 January 2024. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact **David Sibley, AD0049@traderemedies.gov.uk**. (We may grant extensions to deadlines on a case-by-case basis with a commitment to ensuring fairness to all parties.)

## Note about confidentiality

You will need to submit a confidential and a non-confidential version of your pre-sampling questionnaire by the due date.

Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-confidential” in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

Please see the TRA's [public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems.

The non-confidential version of your submission will be placed on the public file, which is available on [www.trade-remedies.service.gov.uk/public/cases](http://www.trade-remedies.service.gov.uk/public/cases). **<case team to update link to the specific public file for the relevant case>**

**Section A – Activities of your company and any associated parties**

**A1 – Your company’s activities**

To determine your company’s role for the purpose of this investigation, please select the activity/activities of your company below. For a definition of goods concerned / like goods please refer to above section ‘[the scope of this investigation](#)’.

- overseas producer of the like goods (who does not export directly)
- overseas exporter of the goods concerned (who does not produce)
- overseas producer and exporter of the goods concerned
- other (please give details below)

If you have selected ‘other’, please describe the role of your company with regards to the goods concerned or the like goods:

(Click or tap here to enter text.)

Please describe your interest in this investigation:

*[Redacted – contains commercially sensitive information] purchases the product under investigation and sells it to the UK.*

**A2 – Associated parties and operational links**

Please give details of all associated parties involved with the company in the production and sales (export and/or domestic) of the goods concerned or like goods during the POI. Both natural persons (individuals) and legal persons (e.g. companies) are considered to be associated where they meet the definition of ‘Related Persons’ in [regulation 128 of the Customs \(Import Duty\) \(EU Exit\) Regulations 2018](#).

Examples of activities could include manufacturing, exporting, purchasing, warehousing, sales (domestic), sales (export), further processing of the goods concerned or like goods.

### B3 – Commodity codes

Please provide details of the commodity code(s) you export the goods concerned to the UK under in the box below (if applicable):

*[Redacted – contains commercially sensitive information]*

### Section C – Individual anti-dumping amount

If the TRA decides to sample overseas producers and/or exporters, and you are **not** selected for this sample, exporters might become eligible for an individual anti-dumping amount if you complete a detailed questionnaire. Please indicate whether you would complete this questionnaire below:

- Yes  
 No

If you do **not** choose to complete a detailed questionnaire, you will not be eligible for an individual anti-dumping amount. Your anti-dumping amount will be determined based on the amounts imposed on the overseas exporters in the sample.

#### Please note:

If we recommend that a trade remedy measure applies following this investigation and you have requested an individual anti-dumping amount, please note that you will be required to supply the necessary information within the given timeframe for us to calculate this for you.

The TRA must accept an overseas exporter's request for an individual anti-dumping amount and calculate an individual amount, providing that:

- the information required is complete and submitted on time; and
- the number of requests for individual calculations does not unduly burden the investigation and risk delaying its conclusion.

### Section D – Additional information

#### D1 – Other interested parties

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below.

Organisation name	Website

### D2 – Scope

Do you agree with the scope of the investigation as outlined on page 3?

- Yes  
 No

If you have answered no to the above question, please can you explain why?

### D3 – Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which usually come in the form of an **alphanumeric code**, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

However, we are proposing a single numeric code following industry feedback that there is little variation between the different types of S-PVC on the world market (including cost to make and actual sales prices). We have created a draft PCN table and enclose this here for you now.

Description	PCN Descriptor
Suspension PVC, not mixed with any other substance	1

Please review the draft PCN structure for this investigation shown in the table above. Please include any comments on the PCN structure in the box provided.

*No comments. This is without prejudice to our position that adjustments may be needed, for instance for off spec products.*

**D4 – Economic Interest Test**

It is a requirement of the investigation to conduct an Economic Interest Test (EIT). The aim of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK. To obtain a complete picture of the UK market, please help by providing details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your like goods). Please confirm in the final column if we can contact these companies.

**D5 – Anything else**

*As of [Redacted – contains commercially sensitive information], Resin Technology Inc. transferred [Redacted – contains commercially sensitive information]% of its assets to [Redacted – contains commercially sensitive information]. Therefore, Resintech's business now runs under a [Redacted – contains commercially sensitive information].*

*As indicated in Table B above, some data only relates to a subset of the POI, as the data gathering for these specific requests within the timeframe to file this PSQ presented some challenges, [Redacted – contains commercially sensitive information]. If sampled, all data will be provided for the full POI.*

Please use the box below to provide information about anything else you consider relevant to this investigation:

Now you have reached the end of this questionnaire please ensure that you have prepared a confidential and non-confidential version and indicated the status of each within the header. The non-confidential version should redact personal contact information, names, signatures, and exact sales quotes. Redacted figures should be replaced with a range where possible. Please return both versions to the TRA using the Trade Remedies Service ([trade-remedies.service.gov.uk](https://trade-remedies.service.gov.uk)).
