The scope of this investigation

Goods concerned

This investigation covers certain excavators exported from the PRC, described as:

- ***Self-propelled track-laying (i.e., tracked) excavators with a 360° revolving superstructure and with an operating weight of 11,000 kg (i.e., 11 tons) or more.***

These excavators are currently classifiable within the following commodity code 8429 5210 00. This commodity code is only given for information, and includes 'mini' excavators under 11 tons.

In this pre-sampling questionnaire, these goods will be referred to as the **goods concerned**. Any reference to the **goods concerned** in this pre-sampling questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

Like goods

This pre-sampling questionnaire asks for information about your company's imports and sales of goods which are **like** the goods concerned. Any reference to '**like goods**' in this pre-sampling questionnaire refers to goods produced in the UK or imported to the UK from a country other than the PRC which are like the goods concerned in all respects, or with characteristics closely resembling them.

Please follow the instructions for each question to provide the appropriate information regarding the goods concerned or like goods.

For more information about this case, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/AS0046/>

Instructions

Who should complete this form

You should complete this form if you are a **UK importer** of the goods concerned.

Why you are being asked to complete this pre-sampling questionnaire

You have identified yourself as a UK importer of the goods concerned. We are therefore seeking your cooperation in the investigation.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of UK importers complete this pre-sampling questionnaire, we will use the information each one provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than **30 November 2023**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact **David George**, AS0046@traderemedies.gov.uk and see the TRA's guidance on extension requests for further information.

Note about confidentiality

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date.

Please ensure that each page of information you provide is clearly marked either "Confidential" or "Non-Confidential" in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

Please see [the TRA's public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems.

The non-confidential version of your submission will be placed on the public file, which is available on <https://www.trade-remedies.service.gov.uk/public/case/AS0046/>

Organisation name	Website

D2 – Particular Market Situation

If you have any concerns or information about the possible existence of a particular market situation in the exporting country or territory, please provide details in the box below. This can include examples such as:

- Prices are artificially low
- There is significant barter trade (e.g. goods exchanged for other goods)
- Prices reflect non-commercial factors; or
- Anything else

N/A.

D3 – Scope

Do you agree with the scope of the investigation as outlined on page 3?

Yes

No

If you have answered no to the above question, please can you explain why?

N/A.

D4 – Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

Given the relatively low number of sales in the UK Excavator market and the large number of configurations available for purchase (e.g., air conditioning for the cab, dozer blades or not, and different sizes of track shoes), we consider it is not useful to add further PCNs. Instead, any differences in physical characteristics relevant to the calculations (e.g., any costly attachments or options) should be addressed through adjustments.

Category	Description	Basic Operating weight
S	Small Excavators	>=11 tons <15 tons
M	Medium Excavators	>=15 tons <20 tons

L	Large Excavators	>=20 tons <30 tons
XL	Extra-Large Excavators	>=30 tons

Please review the draft PCN structure for this investigation shown in the table above. Please include any comments on the PCN structure in the box provided.

N/A.

D5 – Economic Interest Test

It is a requirement of the investigation to conduct an Economic Interest Test (EIT). The aim of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK. In order to obtain a complete picture of the UK market, could you please help by providing us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your like goods). Please confirm in the final column if we are able to contact these companies.

	Company name	Company location (city, country)	Company Contact Information (email/telephone)	Relationship	Can we contact Y/N
1	[redacted – commercially sensitive information]	[redacted – commercially sensitive information]	[redacted – contains personal information]	Downstream	Y
