## **Like goods**

In addition to seeking information about your company's export sales to the UK of the goods subject to review, this pre-sampling questionnaire will also ask about your sales of like goods in your domestic market and to third countries. Any reference to '**like goods**' in this questionnaire refers to goods which are like the goods subject to review in all respects, or with characteristics closely resembling them.

**Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.**

For more information about this case, you may refer to the Notice of Initiation published at: [www.trade-remedies.service.gov.uk/public/case/TS0044/](http://www.trade-remedies.service.gov.uk/public/case/TS0044/)

## Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will consider whether the production and/or export of biodiesel from Argentina to the UK is being subsidised and whether this subsidisation is likely to cause injury to the UK industry for these goods if the countervailing amount no longer applied.

### Who should complete this form

You should complete this form if you are an **overseas exporter** of the goods subject to review.

If you are not an **overseas exporter**, please complete either the relevant Pre-Sampling Questionnaire or the Other Interested Party and Contributor Registration Form if you have information that you wish to be considered during the investigation.

### Why you are being asked to complete this pre-sampling questionnaire

We are seeking your cooperation as an overseas exporter of the goods subject to review to inform our review of whether the current countervailing measure should be maintained, varied or revoked.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of overseas exporters of the goods subject to review from Argentina complete this pre-sampling questionnaire, we will use the information each one provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

By submitting a completed detailed questionnaire response, you might be eligible for an individual countervailing amount, if we recommend that measures continue following this review. Please refer to [Section C](#) for more information on individual countervailing amounts.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you may be deemed non co-operative. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

### Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than **23 October 2023**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact [TS0044@traderemedies.gov.uk](mailto:TS0044@traderemedies.gov.uk) and see the TRA's guidance on extension requests for further information.

### **Note about confidentiality**

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date.

Please ensure that each page of information you provide is clearly marked either "Confidential" or "Non-Confidential" in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

Please see the [TRA's public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems.

The non-confidential version of your submission will be placed on the public file, which is available on [www.trade-remedies.service.gov.uk/public/case/TS0044](http://www.trade-remedies.service.gov.uk/public/case/TS0044)

## Section C – Individual countervailing amount

If the TRA decides to sample overseas exporters, and you are **not** selected for this sample, you might become eligible for an individual countervailing amount if you complete a detailed questionnaire. Please indicate whether you would complete this questionnaire below:

- Yes

- No

If you do **not** choose to complete a detailed questionnaire, you will not be eligible for an individual countervailing amount. Your countervailing amount will be determined based on the amounts imposed on the overseas exporters in the sample.

### Please note:

If we recommend that a trade remedy measure continues following this review, and you have requested an individual countervailing amount, you will be required to supply the necessary information within the given timeframe for us to calculate this for you.

The TRA must accept an overseas exporter's request for an individual countervailing amount and calculate an individual amount, providing that:

- the information required is complete and submitted on time; and
- the number of requests for individual calculations does not unduly burden the review and risk delaying its conclusion.

## Section D – Additional information

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below.

Organisation name	Website
N/A	N/A

N/A
-----

### D3 – Product Control Numbers

The TRA uses Product Control Numbers (PCNs) to define and distinguish the different types of products that fall under the goods description above.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

We have created a draft PCN table and enclose this here for you now.

Please review the draft PCN structure for this review shown in the table above. Please include any comments on the PCN structure in the box provided.

Characteristic	Symbol	Description
Cold Filter Plugging Point (CFPP)	P	Positive value + temperature rounded to nearest degree
	N	Negative value + temperature rounded to nearest degree
Type	1	Regular RED (renewable energy directive) certified biodiesel
	2	Eligible for double-counting
	0	Other/special purpose sold without any certificate
Form	P100	Pure form (100)
	B(XX)	Included in a blend (blend rate)

Under this PCN structure, biodiesel assigned PCN P1B30 would be a product that corresponds with the following:

- A positive Cold Filter Plugging Point (CFPP)
- Regular RED certified biodiesel
- A 30 percent blend rate

### D4 – Economic Interest Test

It is a requirement of the review to conduct an Economic Interest Test (EIT). The aim of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK. In order to obtain a complete picture of the UK market, please provide us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies

buying your like goods). Please confirm in the final column if we are able to contact these companies.

	Company name	Company location (city, country)	Company Contact Information (email/telephone)	Relationship	Can we contact Y/N
