## The scope of this review

### Goods subject to the review

This review covers certain pneumatic tyres, new or retreaded, of rubber, of a kind used for buses or lorries, with a load index exceeding 121, exported from the People's Republic of China (PRC).

These goods subject to the review are currently classifiable within the following commodity codes:

- 4011 20 90 00;
- 4012 12 00 10.

These commodity codes are only given for information.

In this pre-sampling questionnaire, these goods will be referred to as the goods subject to review. Any reference to goods subject to review in this pre-sampling questionnaire refers to the goods description above, regardless of the commodity code under which they are exported.

### Like goods

In addition to seeking information about your company's export sales to the UK of the goods subject to review, this pre-sampling questionnaire will also ask about your sales of like goods in your domestic market and to third countries. Any reference to '**like goods**' in this questionnaire refers to goods which are like the goods subject to review in all respects, or with characteristics closely resembling them.

**Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.**

For more information about this case, you may refer to the Notice of Initiation published at: [www.trade-remedies.service.gov.uk/public/case/TD0035/](http://www.trade-remedies.service.gov.uk/public/case/TD0035/)

## Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will consider whether the goods subject to review are being exported to the UK at prices less than their normal value and that this dumping (export price at less than normal value) is likely to cause injury to the UK industry for these goods if the anti-dumping amount no longer applied

### Who should complete this form

You should complete this form if you are an overseas exporter of goods subject to the review.

### Why you are being asked to complete this pre-sampling questionnaire

We are seeking your cooperation as an overseas exporter of the goods subject to review to inform our review of whether the current anti-dumping measure should be maintained, varied or discontinued. If you are not an overseas exporter, please complete either the relevant Pre-Sampling Questionnaire or the Other Interested Party and Contributor Registration Form.

This pre-sampling questionnaire allows us to collect basic information and data about your company. If a large number of overseas exporters of the goods subject to review from the PRC complete this pre-sampling questionnaire, we will use the information each one provides to help us decide which companies we want to sample for further investigation. If you are sampled, we will send you a more detailed questionnaire to complete.

By submitting a completed detailed questionnaire response, you might become eligible for an individual anti-dumping amount, if we are recommending that measures are continued following this review. Please refer to [Section C](#) for more information on individual anti-dumping amounts.

If you do not complete this pre-sampling questionnaire or the detailed questionnaire, you could be found to be non-cooperating. For more details on how this may affect you, please consult our [operational guidance on non-cooperation](#).

## Deadline for response

A completed pre-sampling questionnaire must be submitted to the TRA by no later than **18 May 2023**. If you are unable to provide a completed submission by the given due date and you wish to request an extension, please contact **James Reith, TD0035@traderemedies.gov.uk** and see the TRA's guidance on extension requests for further information.

## Note about confidentiality

You will need to submit one confidential version and one non-confidential version of your pre-sampling questionnaire by the due date.

Please ensure that each page of information you provide is clearly marked either "Confidential" or "Non-Confidential" in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

Please see the [TRA's public guidance](#) for further information on what can be considered confidential and how to prepare a non-confidential version of this questionnaire.

All information provided to the TRA in confidence will be treated accordingly and only used for this investigation (except in limited circumstance as permitted by regulation 46 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019) and will be stored in protected systems.

The non-confidential version of your submission will be placed on the public file, which is available on [www.trade-remedies.service.gov.uk/public/case/TD0035/](http://www.trade-remedies.service.gov.uk/public/case/TD0035/).

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the domestic UK market and those produced in foreign markets.

We have created a draft PCN table and enclose this here for you now.
