## Instructions

The Trade Remedies Authority (TRA) will be carrying out a transition review of the EU trade remedy measure which will assess whether the dumping of ironing boards from the People's Republic of China (PRC) would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods, and injury to the UK industry in the **like goods** would be likely to continue or recur if the anti-dumping duty were no longer applied to those goods.

### Who should complete this form?

You should complete this form if you are one of the party types listed at the beginning of this document.

If you are a UK producer of the **like goods**, importer or overseas exporter of the **goods subject to review**, please complete the relevant Pre-Sampling Questionnaire. (definition of **like goods** and **goods subject to review** on page 5).

## The scope of this transition review

### Goods subject to review

This transition review covers ironing boards originating in the PRC, described as:

Ironing boards, whether or not free-standing, with or without a steam soaking or heating top or blowing top, including sleeve boards, and essential parts thereof, *i.e.* the legs, the top and the iron rest.

These goods are currently classifiable within the following commodity code(s):

<b>39 24 90 00 10</b>	<b>73 23 93 00 10</b>	<b>85 16 79 70 10</b>
<b>44 21 99 99 10</b>	<b>73 23 99 00 10</b>	<b>85 16 90 00 51</b>

These commodity codes are only given for information. The goods are defined by the current description.

In this pre-sampling questionnaire (PSQ), these goods will be referred to as the **goods subject to review** (identified by the goods description above, regardless of the commodity code under which they are exported).

To note: should you disagree with the description of the goods within the scope of this transition review, you can comment on this in section [B2 – Scope](#).

### Like goods

In this PSQ, the ‘**like goods**’ is defined as goods that are produced in the UK or imported into the UK from a country other than the PRC, and which are like the **goods subject to review** in all respects, or, if there are no such goods, goods with characteristics closely resembling them.

This PSQ will ask for information about your company's production, imports and sales of the **like goods**.

### **Recalculation in transition reviews**

Please note that the TRA does not intend to assess whether it is necessary to recalculate the anti-dumping amounts in this transition review unless registered parties to the case provide compelling evidence that it may be appropriate to recalculate. If you have evidence you'd like us to consider, please provide the information as part of this submission in section [B5 – Anything else](#).

**Please follow the instructions for each question to provide the appropriate information regarding the goods subject to review or like goods.**

For more information, you may refer to the Notice of Initiation published at: <https://www.trade-remedies.service.gov.uk/public/case/TD0063/>

## Section A – Your organisation’s interest in the case

To register your organisation’s interest in this transition review, please complete the text boxes below.

Please describe whether you think the anti-dumping measures should be varied (including extended) or revoked and why?

The anti-dumping measures should be revoked because the imports from China is little and dumping does not exist.

Please describe your role with regards to the like goods and / or goods subject to review:

Government of the exporting country.

## Section B – Additional information

### B1 – Market prices in the PRC domestic & exporters market, and price comparison to the UK market

One of the factors the TRA considers in our analyses is a comparison between the UK domestic prices of the **like goods**, the prices of the **like goods** sold domestically in the PRC, and prices of the **goods subject to review** (exported from the PRC to the UK). To conduct this comparison, we need to understand the PRC market prices of the **like goods** and the **goods subject to review**.

**For our analyses, are you able to provide examples of the market price of the goods subject to review exported from the PRC to the UK, and the like goods produced and sold within the PRC – and are you able to support this information with any sources that you consider to be relevant to this investigation?**

Government of China does not collect the market price of the goods subject to review.

**Compared to the UK market prices of the like goods**, can you provide any details (and where possible, any sources) that can explain any differences between UK market, and overseas export market prices? This could include, but not be limited to, product quality or production costs.

N/A

## B2 – Scope

Please review the scope of this transition review on [page 5](#). Do you consider the description of the **goods subject to review** to be suitable compared to the **like goods** produced by the UK industry?

N/A

Are there goods you feel should be included within the scope, or excluded from the current scope?

N/A

## B3 – Other interested parties

If you believe there are other interested parties that should receive a questionnaire, please provide their organisation name and website details below. This could include producers,

importers, exporters, or any other party who may have a contribution to make to the investigation relating to ironing boards.

Organisation name	Website

### B4 – Economic Interest Test

While conducting a transition review, to make a recommendation to vary (including extending) the anti-dumping measure, we must conduct the Economic Interest Test (EIT). The purpose of the EIT is to determine whether the implementation of the proposed trade remedy measure is in the wider economic interest of the UK.

To obtain a complete picture of the UK market, could you please provide us with details of your UK suppliers (upstream companies providing inputs) and UK customers (downstream companies buying your **like goods**).

We would like to use any contact details you provide to get in touch with these companies, although there is no obligation on you to provide this information.

### B5 – Anything else

*Please use the box below to provide information about anything else you consider relevant to this transition review (e.g., compelling evidence that it may be appropriate to recalculate the anti-dumping amounts; comments around a particular market situation (PMS) in the PRC.*
