Tariff Rate Quota Review – Developing Country Exception

Case No. TQ0066

Period of Investigation:	<input type="text" value="1 January 2024 to 31 December 2024"/>
Deadline for response:	<input type="text" value="14 March 2025"/>
Case Team Contact:	<input type="text" value="TQ0066@traderemedies.gov.uk"/>
Completed on behalf of:	<input type="text" value="The Government of Egypt"/>
Party type (select):	<input type="checkbox"/> UK producer <input checked="" type="checkbox"/> Other

When you have completed this form, indicate the **confidentiality** status of this document by placing an X in the relevant box below and in the header. We strongly recommend this questionnaire to be completed on the computer, so this step is easy to complete:

- Confidential
 Non-Confidential – will be made publicly available

Parties providing confidential information should also provide a non-confidential summary of that information or a statement of reasons why it cannot be summarised. Both copies must be returned to the TRA using the Trade Remedies Service (www.trade-remedies.service.gov.uk) by **14 March 2025**.

TRQ review

In conducting this TRQ review, the TRA will consider whether there has been a change in circumstances since the application of the relevant tariff rate quota (see below). As part of the review, the TRA may consider:

- Whether the amount or allocation of the tariff rate quota is appropriate for domestic market conditions;
- The desirability of maintaining, as far as possible, traditional trade flows;
- Any other factors that it considers relevant.

Change in circumstances

The TRA has reviewed trade data which indicates that there may have been a change of circumstances which corresponds with the provisions in regulation 35B(9)(f) and regulation 35B(9)(g) of The Trade Remedies (Increase in Imports Causing Serious Injury to UK Producers) (EU Exit) Regulations 2019 (the Regulations). This data indicates that the import levels from certain developing countries have changed since the application of the measure. The TRA is now reviewing this data to determine whether the list of developing countries not currently excepted from the application of the tariff rate quotas should be amended.

Scope of the review

This TRQ review will consider the developing country exceptions as it applies across the following product categories:

- 1 – non-alloy and other alloy hot-rolled sheet and strip (split into categories 1A and 1B)
- 4 – metallic coated sheet
- 5 – organic coated sheet
- 6 – tin mill products
- 7 – non-alloy and other alloy quarto plates
- 12 – merchant bars and light sections (split into categories 12A (alloy merchant bars and light sections), and 12B (non-alloy merchant bars and light sections))
- 13 – rebar
- 16 – non-alloy and other alloy wire rod
- 17 – angles, shapes, and sections of iron or non-alloy steel
- 19 – railway material
- 20 – gas pipe
- 21 – hollow section

25 – large welded tube (split into categories 25A (large welded tube (1)) and 25 B (large welded tube (2))
26 – other welded tube

A full list of the commodity codes which are included in each category can be found in [Trade remedies notice 2024/06: safeguard measure: tariff-rate quota on steel goods](#).

Note that:

- Category 1 was split into Category 1A and Category 1B with effect from 1 October 2024. See: [Trade remedies notice 2024/08: safeguard measure: tariff-rate quota on steel goods](#); and
- the definitive safeguarding remedy on Category 2 was revoked by the Secretary of State with effect from 23 January 2025. See: [Trade remedies notice 2025/02: Safeguarding measure on category 2 steel products](#)

For more information about this case, you may refer to the Notice of Initiation published at: www.trade-remedies.service.gov.uk/public/cases.

Instructions

I – Who should complete this form

You should complete this form if you wish to register your interest in the TRQ review.

II – Note about confidentiality

Anyone requesting that information be treated as confidential must demonstrate to the TRA good cause as to why the TRA must treat such information as confidential, and provide a non-confidential summary of that information or a statement of reasons why it cannot be summarised.

Please ensure that each page of information you provide is clearly marked either “Confidential” or “Non-Confidential” in the header.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures.

All information provided to the Trade Remedies Authority (TRA) in confidence will be treated accordingly, only used for this review, and will be stored in protected systems.

The non-confidential version of your submission may be placed on the public file, which is available on www.trade-remedies.service.gov.uk/public/cases.

Section A – Your organisation’s interest in the review

To register your organisation’s interest in this TRQ review, please complete the text boxes below.

A1. Please describe your interest in this TRQ review:

The Ministry of Investment and Foreign Trade of Egypt, represented by the Trade Remedies Sector, has a strong interest in this Tariff Rate Quota (TRQ) review as it directly affects Egypt’s exports of steel products to the United Kingdom.

Egypt is classified as a developing country under the safeguard measures applied by the UK. According to the Trade Remedies Notice 2024/06 and the recent review decisions, Egypt is exempt from the safeguard measures for most steel product categories, except for Category 13 (Rebar), where Egypt has been allocated a 6.2% share of the residual quota on a quarterly basis.

This review is of particular importance to Egypt’s steel industry; especially for exporters of Rebar (Category 13), as any modifications to the TRQ allocation may impact Egypt’s market access and competitive position in the UK steel market. The Trade Remedies Sector seeks to ensure that the current allocation remains fair and that Egyptian exporters are not disproportionately affected by any potential changes.

Additionally, Egypt aims to preserve its traditional trade flows and ensure predictability and stability for Egyptian steel exporters.

Section B – Additional information

B1. Please use the box to provide information about anything else you consider relevant to this TRQ review:

The Trade Remedies Sector of Egypt would like to highlight the following key points:

1. Stability of Egyptian Exports
 - Egyptian steel exports to the UK have remained stable, with no evidence of trade diversion or market distortion.
 - The 6.2% residual quota allocation for Rebar (Category 13) has provided predictable access to the UK market for Egyptian exporters.
2. Preserving Egypt's Developing Country Status
 - Egypt remains a developing country under WTO rules and should continue to benefit from exceptions to safeguard measures.
3. Potential Impact of TRQ Changes
 - A reduction in Egypt's quota share for Rebar (Category 13) could disrupt supply chains and negatively impact Egyptian producers.
 - Egyptian exporters require a stable and predictable trading environment to continue supplying the UK market efficiently.

Given the above, the Trade Remedies Sector urges the TRA to take Egypt's concerns into account before finalizing any adjustments to the TRQ system and maintain or extend the current TRQ allocation for Rebar (Category 13) and the continued exemption of other Egyptian steel products from safeguard measures.

We appreciate the opportunity to contribute to this review and look forward to further engagement with the TRA on this matter.
