Completing this registration form and pre-sampling questionnaire

To register to this case, you need to provide two copies of your response to this form: a confidential and a non-confidential version. Your non-confidential version should be as similar as possible to your confidential version except for the redaction of the confidential information.

Both copies must be returned to the TRA by **20 March 2026** using the Trade Remedies Service (www.trade-remedies.service.gov.uk).

The non-confidential version of your registration form and pre-sampling questionnaire may be placed on the public file: <https://www.trade-remedies.service.gov.uk/public/cases/>.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures. Please see the [TRA's public guidance](#)¹ for further information on providing confidential information and non-confidential summaries.

All information provided to the TRA in confidence will be treated as confidential in accordance with regulation 45 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations) and will not be disclosed (except in limited circumstance as permitted by regulation 46 of the Regulations) and will be stored in protected systems.

Request to complete a detailed questionnaire

If, on the basis of the information provided in this form, we determine that you are an overseas exporter or an importer of the goods subject to the investigation, or a UK producer of goods that are like the goods subject to the investigation, or a contributor, we will ask you to complete a detailed questionnaire to inform this investigation.

If we consider it appropriate, we may only ask a sample of overseas exporters, importers and/or UK producers to complete a detailed questionnaire. By submitting this completed registration form and pre-sampling questionnaire, you agree that you may be included in any such sample.

¹ <https://www.gov.uk/government/publications/the-uk-trade-remedies-investigations-process/the-tras-investigation-process>

If your company is included in the sample, you will be asked to respond to the questions in the detailed questionnaire and to support the TRA in verifying your responses. This may involve the TRA carrying out a verification visit to your premises.

If you are an overseas exporter and indicate that you do not agree to possible inclusion in a sample, your company may be deemed not to have cooperated in the investigation. The TRA will base its findings for non-cooperating parties on facts available. This may result in an outcome that is less favourable to your company than if it had cooperated.

If we decide to sample overseas exporters, and your company is not selected for this sample, you may submit a request to us to calculate individual margins for your company. We will accept your request providing that:

- you submit the required information on time; and
- the number of exporters subject to examination is not so large that complying with the request would be unduly burdensome and risk preventing the timely completion of the investigation.

B3. Product control numbers

The TRA uses product control numbers (PCNs) to define and distinguish the different types or subcategories of goods that fall under the goods description of the goods concerned. Subcategories are developed on the basis of differences in the physical and/or commercial characteristics of the goods which may impact the price at which each subcategory is sold.

- Confidential
- Non-confidential

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the PRC.

We have created the following draft PCN table:

Category 类别	Code 编码	Description 描述
Glass colour	P	Colourless (Premium / extra white flint)
	S	Colourless (Standard flint)

	F	200-299ml
Weight	A	0-24 g
	B	25-49 g

Some examples of products and their corresponding PCNs are below:

- An amber pharmaceutical bottle with a nominal capacity of 50ml, weighing 40g, with a standard design and not provided with decoration. 31. Please review the above draft PCN structure for this investigation and comment in the field below whether the PCN structure is adequate and appropriate to categorise the goods produced, exported and/or imported by your company.

Answer:

At this time, SGD Asia Pacific has no comments on the proposed PCN structure.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

32. Please provide details of any technical or physical characteristic not included in the PCN structure that may affect the price comparison between the goods concerned and the goods that are like the goods concerned (the UK like goods).

Answer:

At this time, SGD Asia Pacific is not aware of any details of any technical or physical characteristic not included in the PCN structure that may affect the price comparison between the goods concerned and the goods that are like the goods concerned.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

33. If you are an overseas exporter or importer of the goods concerned or a UK producer of the goods that are like the goods concerned (the UK like goods), comment on whether the proposed PCN structure adequately aligns with your goods range. In particular, we would welcome your comments on:

- the categorisation of product features;
- the list of products included in the “other” category and whether this prevents a fair comparison between PCNs;
- whether you produce, or are aware of, any specialised products that fall within the definition of the goods concerned or the goods that are like the goods concerned (the UK like goods) which have a sufficiently different price point to make them unsuitable for comparison with the other sub-categories of the “goods concerned”; and
- do you export, produce or import any goods that could be categorised under more than one PCN? If so, please suggest any changes to the proposed PCN structure?

Answer:

The proposed PCN structure adequately aligns with SGD Asia Pacific’s goods range.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

34. Please provide details of any manufacturing process differences which you think may influence the PCN structure and the price comparison between the goods concerned or the goods that are like the goods concerned (the UK like goods).

Answer:

At this time, SGD Asia Pacific has no comments on manufacturing process differences which may influence the PCN structure and the price comparison.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

B4. Particular market situation and representative third country

The applicant has alleged that there is a Particular Market Situation (PMS) in the market for the goods concerned in the PRC. The TRA will therefore assess whether such a PMS exists as part of its investigation.

35. If you consider that there is a PMS in the PRC, please provide reasons and relevant information. This can include examples such as:

- Prices are artificially low;
- There is significant barter trade (e.g. goods exchanged for other goods);
- Prices reflect non-commercial factors; or
- Anything else.

Answer:

There is no existence of any Particular Market Situation in China market. The prices are not artificially low, there is no barter trade, and the price only reflect the market situation.

Consider redacting this information in your non-confidential version of this form, in accordance with our [guidance](#).

If the TRA determines that a PMS exists and the effect of the PMS on the domestic sales price is that it is not possible to make a proper comparison between that domestic sales price and the export price, it may not use the domestic sales price for the purpose of determining normal value.

In such circumstances, the TRA may determine normal value using the costs of production plus a reasonable amount for administrative, selling, and general costs and for profits. The TRA may also make adjustments to those costs and profits using data from an appropriate, representative third country if it determines that any relevant costs or profits are unrepresentative because they do not reasonably reflect the overseas exporter's costs or profits in a market that is substantially determined by market forces.

36. In the event that the TRA needs to make such adjustments, the applicant has proposed Brazil as an appropriate representative country. Please provide any comments on the applicant's suggested representative country.

Answer:

Without any prejudice to SGD Asia Pacific's position against PMS, at this time, SGD Asia Pacific has no comments on the representative country.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

37. In the event that you do not agree with the appropriate representative country proposed by the applicant and the TRA needs to make such adjustments, please suggest an alternative third country from which suitable cost and profit data can be obtained. Please explain your reasons for suggesting this country.

Answer:

Without any prejudice to SGD Asia Pacific's position against PMS, at this time, SGD Asia Pacific has no comments on the representative country.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.

38. If you have suggested an appropriate representative third country, please provide contact details of a producer in that country who may be willing to participate in the investigation (if you have them).

Answer:

Without any prejudice to SGD Asia Pacific's position on PMS, at this time, SGD Asia Pacific has no comments on the representative country.

SGD Asia Pacific reserves the right to provide comments at a later stage should it deem necessary.
