If you are an overseas exporter and indicate that you do not agree to possible inclusion in a sample, your business may be deemed not to have cooperated in the review. The TRA will base its findings for non-cooperating parties on facts available. This may result in an outcome that is less favourable to your business than if it had cooperated.

### B2. Scope

28. If you consider that the goods description subject to the measure under review should be varied, please specify the suggested changes and provide your reasons in the field below.

### B3. Product control numbers

The TRA uses product control numbers (PCNs) to define and distinguish the different types or subcategories of goods that fall under the goods description of the goods subject to review. Subcategories are developed on the basis of differences in the physical and/or commercial characteristics of the goods which may impact the price at which each subcategory is sold.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the country subject to review.

We have created the following draft PCN table:

Characteristic	Explanation	Code
Product Quality	Non Organic	N
	Organic	O
Pigmentation	Pink	P
	White	W
Type	Live	L
	Fresh/Chilled	C
	Frozen	F
	Smoked	S
Presentation	Whole Fish, weighing 1.2kg or less	1
	Gutted Fish, with head and gills on, weighing 1.2kg or less each	2
	Gutted Fish, with head and gills off weighing 1kg or less each	3
	Fillets (fresh/chilled/frozen) weighing 400g or less each	4
	Fillets (smoked) weighing 400g or less each	5

29. Please review the above draft PCN structure for this review and comment in the field below whether the PCN structure is adequate and appropriate to categorise the goods produced, exported and/or imported by your business.

30. Please provide details of any technical or physical characteristic not included in the PCN structure that may affect the price comparison between the goods subject to review and the goods that are like the goods subject to review in the UK

31. If you are an overseas exporter or importer of the goods subject to review or a UK producer of the goods that are like the goods subject to review in the UK, comment on whether the proposed PCN structure adequately aligns with your goods range. In particular, we would welcome your comments on

- the categorisation of product features;
- the list of products included in the “other” category and whether this prevents a fair comparison between PCNs; and
- whether you produce, or are aware of, any specialised products that fall within the definition of the goods subject to review or are like the goods subject to review in the UK which have a sufficiently different price point to make them unsuitable for comparison with the other sub-categories of the “goods subject to review”.
- Do you export, produce or import any goods that could be categorised under more than one PCN? If so, please suggest any changes to the proposed PCN structure?

32. Please provide details of any manufacturing process differences which you think may influence the PCN structure and the price comparison between the goods subject to review or are like the goods subject to review in the UK.

### B4. Effects of a potential measure

33. Please provide contact details for UK businesses from whom you purchase materials used to make the like goods (upstream businesses) and UK businesses who purchase the like goods from you (downstream businesses) to help us obtain a more complete picture of the potential effects of a measure. You are not obligated to provide this information but we will use any details you provide to get in touch with these companies and improve our understanding of the impacts of any potential measure.
