TRQ review

Under regulation 35B(1) of the Regulations, the TRA may conduct a review to consider whether a tariff rate quota (TRQ) to which the goods are subject should be varied or revoked where it is satisfied that there is sufficient information indicating that there may have been a change of circumstances since the application of that TRQ to those goods. As part of the review, the TRA may consider:

- Whether the amount or allocation of the TRQ is appropriate for domestic market conditions;
- The desirability of maintaining, as far as possible, traditional trade flows;
- Any other factors that it considers relevant.

Change in circumstances

The TRA will review trade data on Categories 4 and 7 to determine if there has been a change of circumstances which corresponds with the provisions in regulation 35B(9) of The Trade Remedies (Increase in Imports Causing Serious Injury to UK Producers) (EU Exit) Regulations 2019 (the Regulations).

Scope of the review

The TRA will consider whether the tariff rate quotas to which certain steel products are subject should be varied. The TRA will consider whether certain commodity codes in categories 4 and 7 which have been specified in the applications should be removed from the safeguard measure.

The following commodity codes are the goods subject to review, in accordance with requests in the applications:

Category 4 – metallic coated sheet

7210 6100 20

7210 6900 80

Category 7 – non-alloy and other alloy quarto plates

7208 5191 00

7208 5291 00

7208 5198 00

7208 5120 00

7208 5299 00

7208 5120 10
