Name	Website

+Add additional rows as required

B2. Scope

20. If you consider that the scope of the review should be different, please provide your reasons in the field below.

The Government of China (hereinafter GOC) might make necessary comments on the scope of the investigation once the GOC gains further understanding of the product.

B3. Product control numbers

The TRA may use product control numbers (PCNs) to define and distinguish the different types or subcategories of goods that fall under the goods description of the goods subject to review. Subcategories are developed on the basis of differences in the physical and/or commercial characteristics of the goods which may impact the price at which each subcategory is sold.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the countries subject to a review.

We have created the following draft PCN table:

PCN Structure		
Characteristic	Description	PCN Value
Outer finish	Galvanised finish (zinc coated)	G
	Black	B
	Other (Please specify)	O
Size of the outside diameter	e.g. 10.2 mm	"0102"
	e.g. 165.1 mm	"1651"
End finish	Plain end	P
	Bevelled	B
	Threaded	T
	Threaded with couplings	C
	Other (Please specify)	O
Wall thickness	e.g. 1.80 mm	180
	e.g. 4.85 mm	485

For example, a galvanised tube or pipe with an external diameter of 156.4mm, with a threaded end and a wall thickness of 2.1mm would have the PCN: G1564T210

21. Please review the above draft PCN structure for this review and comment in the field below whether the PCN structure is adequate and appropriate to categorise the goods produced, exported and/or imported by your business.

The GOC might make necessary comments on the PCN structure once the GOC gains further understanding of the product.

B4. Economic Interest Test

22. If, following a review, we conclude that a measure should be varied, we conduct an Economic Interest Test (EIT) to determine whether the measure is in the wider economic interest of the UK. In order to obtain a complete picture of the UK market, could you please help by providing us with details of UK upstream companies (providing inputs for the manufacture of the goods that are like the goods subject to review and UK customers (downstream companies buying the goods). Please confirm in the final column if we are able to contact these companies.

B5. Particular Market Situation

The applicant has alleged that there is a Particular Market Situation (PMS) in the market for goods subject to review in the People's Republic of China. Details of those allegations can be found in the non-confidential application. The TRA will therefore consider whether such a PMS exists as part of its review. You are invited to provide comments and information which would be relevant to the TRA's consideration of whether such a PMS exists. Details of the allegations are set out on the public file.

The GOC reiterate that, there is no particular market situation in Chinese Welded Tubes & Pipes market. Both the prices for domestic sale and export are made by market forces and there is no barter trade in the Chinese Welded Tubes & Pipes market.
