## Introduction

### Registration of interest to the review

We invite interested parties and contributors to **register** their interest in this review **by completing the relevant sections** as indicated in this form **and submitting the completed form** using the Trade Remedies Service ([www.trade-remedies.service.gov.uk](http://www.trade-remedies.service.gov.uk)).

An interested party is either:

- a government of the foreign country or territory subject to the review;
- an overseas exporter, an overseas producer or an importer of the goods subject to the review;
- a UK producer of goods that are like the goods subject to the review; or
- a trade or business association representing one or more of the above parties.

A contributor is a person or company who is not an interested party but who wants to register so that they can participate in a review.

### Scope of the review

Goods subject to review	Self-propelled track-laying (i.e. tracked) excavators with a 360° revolving superstructure and with an operating weight of 11,000 kg (i.e., 11 tonnes) or more but less than 80,000 kg (80 tonnes).
Period of investigation (POI)	<b>1 January 2025 to 31 December 2025</b>

For further details, please refer to the *Notice of Initiation* on the public file: <https://www.trade-remedies.service.gov.uk/public/cases/>.

### Completing this registration form and pre-sampling questionnaire

To register to this case, you need to provide two copies of your response to this form: a confidential and a non-confidential version. Your non-confidential version should be as similar as possible to your confidential version except for the redaction of the confidential information.

Both copies must be returned to the TRA by **14 April 2026** using the Trade Remedies Service ([www.trade-remedies.service.gov.uk](http://www.trade-remedies.service.gov.uk)).

The non-confidential version of your registration form and pre-sampling questionnaire may be placed on the public file: <https://www.trade-remedies.service.gov.uk/public/cases/>.

It is your responsibility to ensure that the non-confidential version does not contain any confidential information, which includes personal contact information, names and signatures. Please see the [TRA's public guidance](#)<sup>1</sup> for further information on providing confidential information and non-confidential summaries.

All information provided to the TRA in confidence will be treated as confidential in accordance with regulation 45 of the Trade Remedies (Dumping and Subsidisation) (EU Exit) Regulations 2019 (the Regulations) and will not be disclosed (except in limited circumstance as permitted by regulation 46 of the Regulations) and will be stored in protected systems.

## Request to complete a detailed questionnaire

If, on the basis of the information provided in this form, we determine that you are an overseas exporter or an importer of the goods subject to the review, or a UK producer of goods that are like the goods subject to the review, or a contributor, we will ask you to complete a detailed questionnaire to inform this review.

If we consider it appropriate, we may only ask a sample of overseas exporters, importers and/or UK producers to complete a detailed questionnaire. By submitting this completed registration form and pre-sampling questionnaire, you agree that you may be included in any such sample.

If your company is included in the sample, you will be asked to respond to the questions in the detailed questionnaire and to support the TRA in verifying your responses. This may involve the TRA carrying out a verification visit to your premises.

If you are an overseas exporter and indicate that you do not agree to possible inclusion in a sample, your company may be deemed not to have cooperated in the investigation. The TRA will base its findings for non-cooperating parties on facts available. This may result in an outcome that is less favourable to your company than if it had cooperated.

If we decide to sample overseas exporters, and your company is not selected for this sample, you may submit a request to us to calculate individual margins for your company. We will accept your request providing that:

- you submit the required information on time; and
- the number of exporters subject to examination is not so large that complying with the request would be unduly burdensome and risk preventing the timely completion of the review

## Section B: Additional information

### B1. Product control numbers

The TRA uses product control numbers (PCNs) to define and distinguish the different types or subcategories of goods that fall under the goods description of the goods subject to review. Subcategories are developed on the basis of differences in the physical and/or commercial characteristics of the goods which may impact the price at which each subcategory is sold.

PCNs, which come in the form of an alphanumeric code, help to create a categorisation system so that comparisons can be made between goods produced in the UK and those produced in the PRC.

The PCN that was used in the original anti-dumping investigation AD0047 is as follows:

Category	Description	Basic Operating Weight
S	Small Excavators	>= 11 tonnes < 15 tonnes
M	Medium Excavators	>=15 tonnes < 20 tonnes
L	Large Excavators	>= 20 tonnes < 30 tonnes
XL	Extra-Large Excavators	>= 30 tonnes < 55 tonnes
XXL	Extra-Extra-Large Excavators	>= 55 tonnes < 80 tonnes
XXXL	Extra-Extra-Extra-Large Excavators	>= 80 tonnes

28. Please review the above draft PCN structure for this review and comment in the field below whether the PCN structure is adequate and appropriate to categorise the goods produced, exported and/or imported by your company.

The PCN structure is adequate and appropriate to categorise the goods produced and exported by our company. Our products subject to the review are in L and XL categories.

## B2. Other comments

28. Please use the field below to provide additional information that you consider relevant to this review. This should include whether your company considers whether any absorption of the anti-dumping duties previously imposed on Certain excavators originating in the PRC has occurred. If not, please explain why this is the case.

We would like to clarify that our company did not export any products to the UK during the period of investigation (POI) relevant to this Absorption Review. Consequently, no absorption of the anti-dumping duties previously imposed on certain excavators originating in the PRC could have occurred in relation to our products.

*redacted*

Despite the absence of exports during the POI, we hereby formally express our interest in participating in this Absorption Review, given our imminent entry into the UK market and our potential future exposure to the measures under review.

Consider redacting this information in your non-confidential version of this form, in accordance with our [guidance](#).
